

Current Volunteer Positions at Vittana

or up-to-date information please view our [jobs page](#)

Student Processing Volunteer

Hours: On going, Flexible

Location: Remotely

The student processing volunteer will work to prepare students to be published to our live site from our backstage database. Volunteers will edit, check, and write student stories based on questionnaires. Volunteers should be self-starters comfortable working on their own timelines with access to google docs. Spanish composition skills are preferred but not required.

Quality Assurance Volunteer

Hours: 20 hours/week

Location: In office or remotely

The quality assurance intern will work closely with the web team at Vittana to ensure that our web product meets our quality standards. Your tasks will include general site testing, copy proofing, feature testing, cross-platform testing, and other web-based tasks. We are looking for applicants with an eye for perfection who are comfortable working independently and have experience in copy editing, user interface design, performance tuning, and/or automated testing.

Example responsibilities for a QA Intern:

- Explore our website looking for broken features, odd behavior, grammar errors, and unintuitive user workflows
- Analyze our website's effectiveness in various mobile browsers
- Use [New Relic](#) or other performance tracking tools to uncover problem areas
- Suggest or write automated tests to increase the long term stability of our website
